Agile

Epic Link: As a user I want to have an 'Admin' module.

Description

Precondition: you are logged in the application → <https://opensource-demo.orangehrmlive.com/web/index.php/auth/login>.

Steps to reproduce:

1. Click on the 'Admin' module.
2. Click on the '+ Add' button.
3. Right click on the web page and click 'Inspect'.
4. Make sure the page dimensions are selected as 'Responsive'.

Actual results

'Confirm Password' text is displayed under the password tips without spacing between them and that makes it harder to be visible to users on devices such as smartphones, tablets, etc.

Expected results

All elements should be displayed with a proper spacing between them so that it is easy to see on smartphones, tablets or other small devices.

Agile

Epic Link: As a user I want to have an 'Admin' module.

Description

Precondition: you are logged in the application -><https://opensource-demo.orangehrmlive.com/web/index.php/auth/login> and at least a system user is also added in the PIM module.

Steps to reproduce:

1. Click on the 'Admin' module.
2. Click on the '+ Add' button.
3. Type a random valid character in the 'Employee Name' text box and select a random value made of two names from the list.

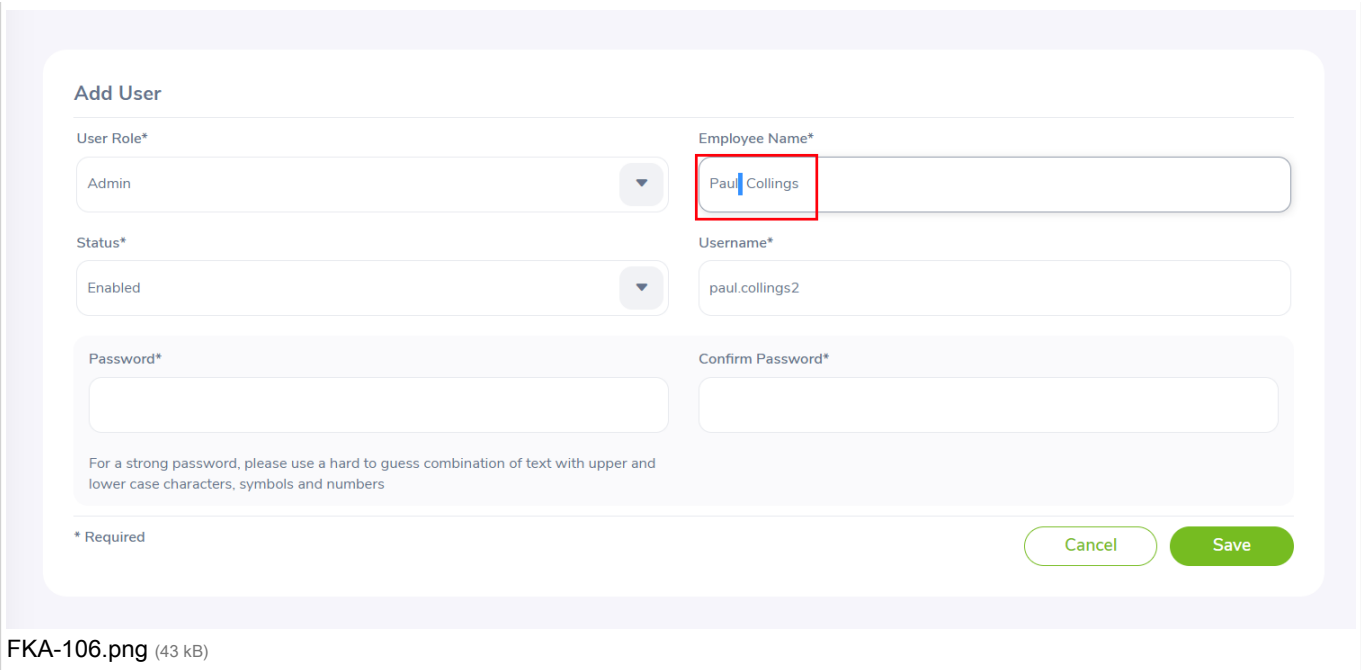

Actual results

In the 'Employee Name' field there are two spaces added between the employee's first name and last name instead of just one.

Expected results

There should be one space between the two names.

Epic Link: As a user I want to have an 'Admin' module.

Description

Preconditions: you are logged in the application → <https://opensource-demo.orangehrmlive.com/web/index.php/auth/login> and there are at least 1 system user added with the 'Enabled' status and at least 1 system user added with the 'Disabled' status.

Steps to reproduce:

1. Click on the 'Admin' module.
2. In the search section select a valid value from the 'Status' dropdown: Disabled.
3. Click on the 'Search' button.

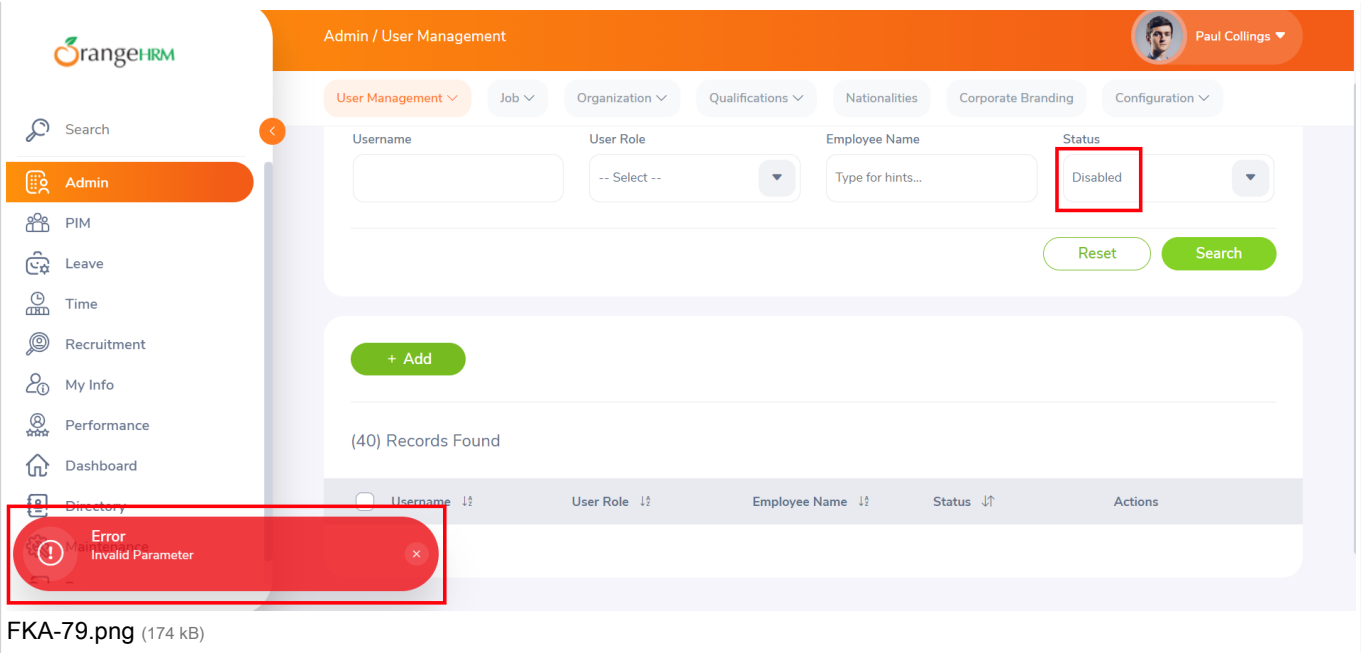

Actual results

An 'Invalid Parameter' red notification is displayed and the 'Records Found' section does not have any results listed with the 'Disabled' status.

Expected results

The system users with 'Disabled' status should be listed in the 'Records Found' section.

Steps to reproduce:

1. Click on the 'Admin' module.
2. Click on the 'Job' menu and select 'Work Shifts' from the submenu.
3. Click on the '+ Add' button.
4. Delete the predefined values on 'Working Hours' time picker.
5. Click on the 'Save' button to check which field is required.

Actual results

The 'Shift Name' text box is a mandatory field and it is missing the asterisk symbol.

Expected results

All mandatory fields should be marked with the asterisk symbol.

Agile

Epic Link: As a user I want to have an 'Admin' module.

Description

Preconditions: you are logged in the application → <https://opensource-demo.orangehrmlive.com/web/index.php/auth/login> .

Steps to reproduce:

1. Click on the 'Admin' module.
2. Click on the 'Job' menu and select 'Work Shifts' from the submenu.
3. Click on the '+ Add' button.
4. Type a valid value in the 'Shift Name' text box: Morning Shift.
5. Select another valid value in the 'From' time picker: 09.30.

Actual results:

When you choose the same minutes for both fields, the count is correct (for example, if you choose 09.30 AM on the 'From' field and 05.30 PM in the 'To' field), but when you choose any other combination of working hours, the 'Duration Per Day' count adds more minutes than it should. This is available for the 'Add Work Shift' page and for the 'Records Found' section.

Expected results:

A correct 'Duration Per Day' count should be displayed when you choose any combination of working hours.

Agile

Epic Link: As a user I want to have an 'Admin' module.

Description

Precondition: you are logged in the application → <https://opensource-demo.orangehrmlive.com/web/index.php/auth/login>.

Steps to reproduce

1. Click on the 'Admin' module.
2. Click on the 'Organization' menu and select 'Locations' from the submenu.
3. Click on the '+Add' button.
4. Click on the 'Name' field and fill with valid data.
5. Click on the 'Country' dropdown.
6. Tap the letter 'R' twice on the keyboard to find the country and click outside of the field to secure the selected data: Romania.
7. Click on the 'Save' button.

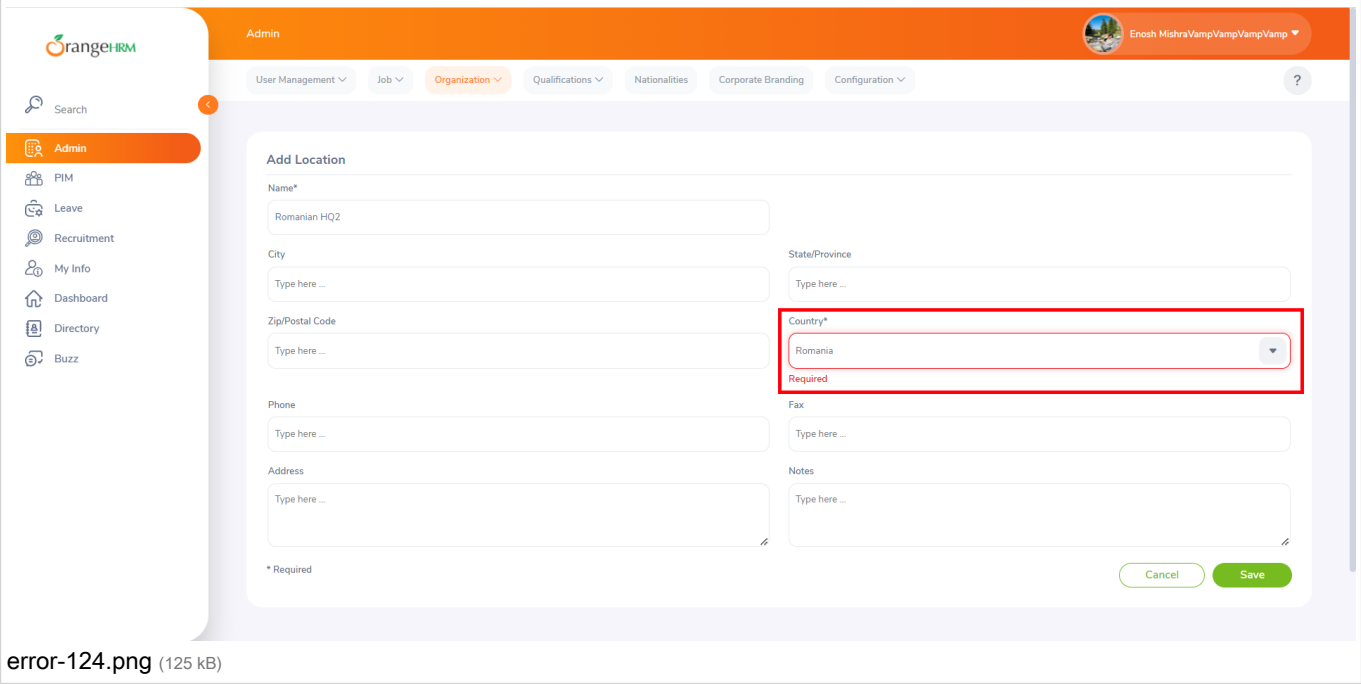

Actual results

The location entry cannot be saved and the 'Country' field returns a 'Required' warning message.

Expected results

The dropdown should accept the selected data and a 'Successfully Saved' notification should be displayed.

Agile

Epic Link: As a user I want to have an 'Admin' module.

Description

Precondition: you are logged in the application → <https://opensource-demo.orangehrmlive.com/web/index.php/auth/login> .

Steps to reproduce

1. Click on the 'Admin' module.
2. Click on the 'Organization' menu and select 'Locations' from the submenu.
3. Click on the 'Country' dropdown.
4. Tap the 'down' arrow from the keyboard to find any country and click outside of the field to secure the selected value.
5. Click on the 'Search' button.

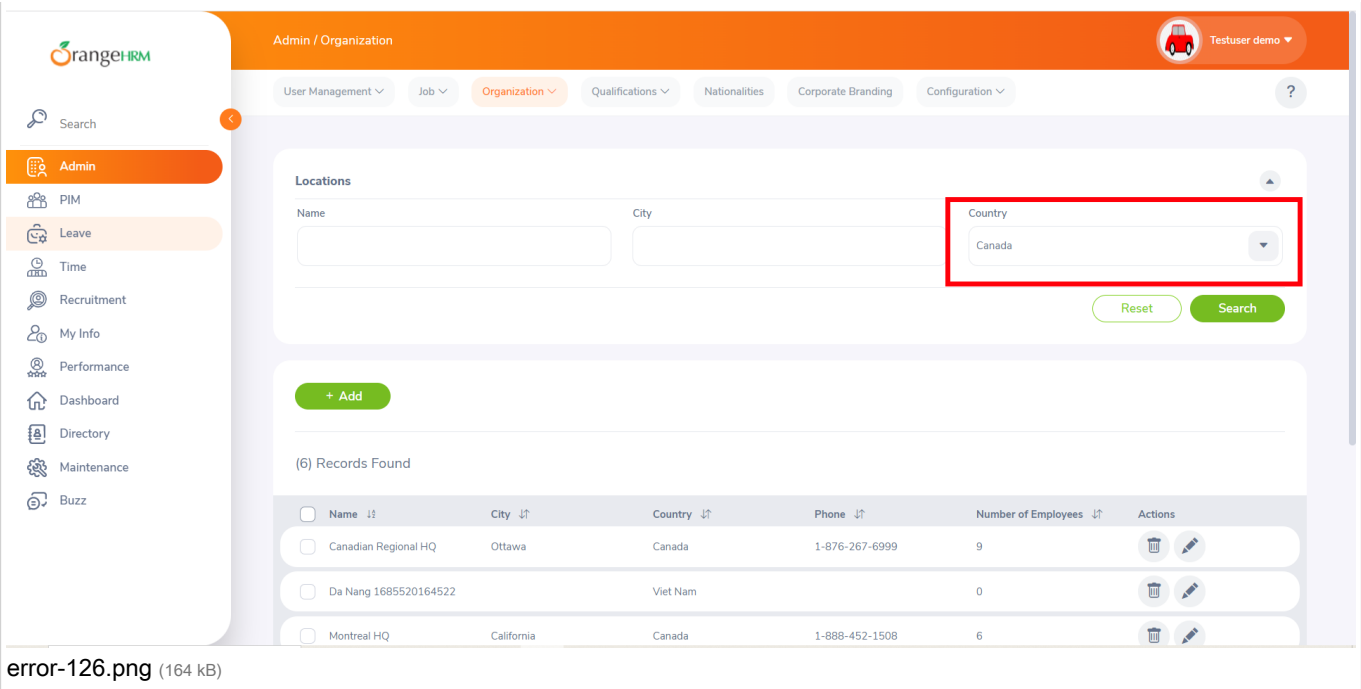

Actual results

When using the keyboard to select a value from the 'Country' dropdown, the value gets stuck after clicking on the 'Search' button or the 'Reset' button and the 'Records Found' section does not retrieve any results with the selected value.

Expected results

The location/s with the selected country should be listed in the 'Records Found' section.
